Отчет по лабораторной работе
Изучение базовых команд Git

1. Создал новый локальный репозиторий

```
PS C:\Users\40617\git-practice> git checkout main
>> git pull origin main
>>                              mkdir my-project
>> cd my-projectto resolve your current index first
>> git initneeds merge
>> echo "Первый файл" > file1.txtcause you have unmerged files.
>> echo "Второй файл" > file2.txte, and then use 'git add/rm <file>'
>> git add file1.txt file2.txtesolution and make a commit.
>> git commit -m "Первый коммит: добавлены file1.txt и file2.txt"
>> C:\Users\40617\git-practice>
```

2. Добавил файл .gitignore с шаблонами игнорирования

```
PS C:\Users\40617\git-practice\my-project> echo "*.log" > .gitignore
>> git add .gitignore
>> git commit -m "Добавлен .gitignore"
>>
[master 4481ab0] Добавлен .gitignore
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:

    git commit --amend --reset-author
```

3. Изменил один из отслеживаемых файлов и сделал второй коммит

```
PS C:\Users\40617\git-practice\my-project> echo "Изменение в первом файле" >> file1.txt
>> git add file1.txt
>> git commit -m "Второй коммит: изменен file1.txt"
>>
[master f596ec9] Второй коммит: изменен file1.txt
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:

    git commit --amend --reset-author

 1 file changed, 0 insertions(+), 0 deletions(-)
PS C:\Users\40617\git-practice\my-project>
```

4. Создал новую ветку для изменений и переключился в неё

```
PS C:\Users\40617\git-practice\my-project> git checkout -b feature
>> echo "Изменение во втором файле" >> file2.txt
>> git add file2.txt
>> git commit -m "Коммит в ветке feature"
>> git checkout master
>> git merge feature
>>
Switched to a new branch 'feature'
[feature b1cf4cb] Коммит в ветке feature
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:
```

5. Сделал ещё одно изменение в основной ветке и зафиксировал его коммитом

```
PS C:\Users\40617\git-practice\my-project> echo "равка в ветке master" >> file1.txt
PS C:\Users\40617\git-practice\my-project> git add file1.txt
PS C:\Users\40617\git-practice\my-project> git commit -m "зменение в ветке master"
[master 4089c4f] зменение в ветке master
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:

    git commit --amend --reset-author
```

6. Перешёл обратно в новую ветку и изменил тот же файл для создания конфликта

```
PS C:\Users\40617\git-practice\my-project> git checkout feature
>> echo "Правка в ветке feature" >> file1.txt
>> git add file1.txt
>> git commit -m "Изменение в ветке feature"
>> git merge master
>>
Switched to branch 'feature'
[feature 01db448] Изменение в ветке feature
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:
```

7. Разрешил конфликт слияния вручную и зафиксировал результат

```
PS C:\Users\40617\git-practice\my-project> git add file1.txt
>> git commit -m "Конфликт разрешен"
>>
[feature 8a9c5b0] Конфликт разрешен
 Committer: Терминальный пользователь 40617 <40617@avt.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:

    git commit --amend --reset-author

PS C:\Users\40617\git-practice\my-project>
```

"

8. Просмотрел историю коммитов с отображением ветвлений

```
PS C:\Users\40617\git-practice\my-project> git log --oneline --graph --all
>>
*   8a9c5b0 (HEAD -> feature) Конфликт разрешен
|\
| * 4089c4f (master) зменение в ветке master
* | 01db448 Изменение в ветке feature
|/
* b1cf4cb Коммит в ветке feature
* f596ec9 Второй коммит: изменен file1.txt
* 4481ab0 Добавлен .gitignore
* 27606d6 Первый коммит: добавлены file1.txt и file2.txt
PS C:\Users\40617\git-practice\my-project>
